Most Common FAQ's

How does the unlimited designs process work?

You can request 1 design at a time. After your design is complete, you can submit a new design.

What is the turnaround time?

See the Project Time Table in previous pages for project specific turnaround times.

Can you set up a template for me?

Yes! Most of our projects are designed within Canva, and editable templates can be sent to you. Please request them when submitting your project request.

Do you offer revisions?

All design projects have unlimited revisions. Our Pixel Palz try to retrieve as much info in the beginning so we limit the amount of revisions, therefore keeping you open to submit new design requests.

Can I request a rush on a project?

Yes, we do offer rush services, and we can complete your project faster than the given turnaround time for an added fee. You can request the rush service when submitting your project.

Do I own the rights to my designs?

Yes, after you receive your designs, they are yours to use as you wish. If you wish for them to remain confidential, please let us know.

Do I have to sign a contract?

No contracts, yay!
All Pixel Palz clients are set up on easy reoccurring billing for the 1st of the month. If you no longer need our monthly services, you can cancel before the 25th, and you will no longer be billed.

After signing up, how long does it take to get started?

Sign up today, and start submitting design requests after your profile is complete, which can take up to 48 hours.

Questions?

Contact us via our website and/or email.

You can also submit a request for custom project that you don’t see listed on our services table.
